

What Our Customers Say

"Everything went smoother than I had anticipated. My floor looks so good, I feel bad walking on it!"

— Rahmi Evlioglu,
Kwik Kar of Coppell

"They are great people—and I know. I've been in business for over 36 years and I've done the research. AutoFloors is reliable and ethical. They have a high quality product and they do great work. As good as they come. Always have been. Solid, good people—quality."

— Norman Frede, Norman
Frede Chevrolet

"My experience with AutoFloors was a very good one. Even though they are in Texas and we're located in Michigan everything was coordinated beautifully. The flooring product we selected, including custom inlaid logos, was delivered and installed quickly and smoothly. AutoFloors did everything we asked. The installers were able to accommodate our specific installation window—over a long weekend. We were surprised to see AutoFloors owners Dan & Robin show up on the job site to ensure that everything was on target. We have had the flooring installed for over 3 years. The product has held up so well that customers think it's brand new."

— Jamie Marsh,
Bill Marsh Chevrolet

"I would highly recommend the rubber floor that AutoFloors installs because of their expertise and great customer service.... I have tried many other products for my bay floors and this is far and beyond the best floor I have found in 17 years for the quick lube business. I have some of the busiest Jiffy Lubes in the system and I needed something to last. I finally found it in AutoFloors."

— Chris Burns,
Dirk-Wilson, Inc.

"Jiffy Lube has relied on AutoFloors to install high performance O.G.R. flooring in hundreds of locations. Our relationship is extremely important to our overall productivity, safety and aesthetic appearance."

— Marcus Duffel,
Shell Lubricants /
Jiffy Lube Fac. Dev. Mgr.

"I have a very high volume fast lube—I have cars lined up around the block right now waiting for an oil change. It is essential to me that the flooring holds up well and is trouble-free. I have had the floor installed for about six years now and it still looks good. I have used it in three of my lube facilities and recommended AutoFloors to everyone. The installation work was excellent. They stand behind their product."

— Jim Grant,
East Ridge Fast Lube

What Our Customers Say

page 2

"Smog 'n Go has installed AutoFloors in each of its four locations with tremendous results. We have used their flooring for nearly five years and our floors look as great now as they did when ...first installed. It is easy to maintain...with only...a mop and water. Our employees... are spared the back pain associated with standing on concrete flooring...."

— Jack Williams,
Smog 'n Go, LLC

"After one year, the floor still looks like new and cleans easily. My employees love standing on it and it is not nearly as slippery when wet as the previous floor. My shop faces south and the sun hits the shop floor in the front of the building literally all day. I was somewhat concerned that the floor would fade from the searing sun, but my fears have been unfounded. We highly recommend the [rubber flooring] product and AutoFloors."

— Pat Wirth,
Potomac Falls Xpress Lube
& Car Wash
